1,100-MW project to generate 4.3b kWh annually; largest in the African nation Egypt's largest onshore wind power project is to be designed and built by a Chinese company, which is deemed by insiders as a milestone in the country's renewable energy sector and demonstrates the growing global.

On Dec 26, 2024, POWERCHINA signed an EPC (engineering, procurement and construction) contract for the 1,100-Megawatt Suez Gulf Wind Power Project with Suez Wind Energy Co. This marks the successful launch of POWERCHINA's largest overseas onshore wind power project, the largest of its kind in.

The Chinese company PowerChina has signed an engineering, procurement and construction (EPC) contract to build the 1.1 GW Suez wind project, located near Ras Ghareb and Ras Shokeir, in Egypt's Red Sea Governorate. The deal was signed with Suez Wind Energy, a joint venture of the Saudi developer.

A 500-kilovolt substation stands on a vast expanse of sand, and the giant steel building looks majestic against the blue sky. Inside the station, the large power transformer runs quietly, and technicians are seen monitoring the power grid carefully. Outside the station, trees and grass sway in the.

On December 14, 2024, the largest integrated photovoltaic and storage power

station in Egypt, which was built by CEEC, officially started construction in Egypt. The project, which includes 1GW of photovoltaic power generation and 600MWh energy storage system, with a total investment of about US\$600.
