ESS-GRID FlexiO is an air-cooled battery solution designed for industrial and commercial applications. Featuring a split PCS and battery cabinet design, it offers 1+N scalability and integrates seamlessly with solar PV, diesel generators, the grid, and utility power. Ideal for microgrids, rural and.

The MEGATRON 1MW Battery Energy Storage System (AC Coupled) is an essential component and a critical supporting technology for smart grid and renewable energy (wind and solar). The MEG-1000 provides the ancillary service at the front-of-the-meter such as renewable energy moving average, frequency.

ges for the data center industry. Microgrid packages are designed to work on- and off- the grid via a digital control that offers intelligent and optimal management of the system. Microgrid solutions offer coordination between different energy sources, including onsite energy generation. With a.

ELM MicroGrid delivers scalable Battery Energy Storage Systems (BESS) starting at 100kW and powering projects up to 100MWh and beyond. Our modular systems can be paralleled to meet large-scale energy demands, providing reliable, resilient, and intelligent energy storage solutions tailored to any.

Namkoo's containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary equipment in a single container or separated based upon site conditions. We provide customers with industry.
