

30kWh Industrial Server Racks in ASEAN Ten Countries

Overview

What is the data center server rack market size in 2023?

Europe is another significant market for data center server racks, with a market size of around \$1.2 billion in 2023. The region is characterized by stringent data protection regulations, such as the General Data Protection Regulation (GDPR), which drive the demand for secure and compliant data center solutions.

What drives the server rack market?

The rise in data center colocation services is also a significant driver for the server rack market. Colocation services allow businesses to rent space for their servers and other computing hardware in third-party data centers.

Why is the server rack market growing in Asia-Pacific?

The U.S. Server Rack Market holds a strong position due to the existing data center infrastructure and demand from hyperscale operators, and the Asia-Pacific region is rapidly developing due to urbanization, digital transformation, 5G adoption, and the capabilities of cloud computing.

What is the global server rack market size?

The global server rack market size stood at USD 3.16 billion in 2024 and is projected to reach USD 3.41 billion in 2025, growing further to USD 6.21 billion by 2033 at an estimated CAGR of 7.7% from 2025 to 2033.
