Do you need help designing or installing an off-grid Solar System?

If you need help designing or installing an off-grid solar system, contact the experts at GoGreenSolar. Whether you're converting an existing system to off-grid or starting from scratch, we can guide you to the best energy-saving solution you're looking for.

Are off-grid solar systems the same as grid-tie solar systems?

Off-grid solar systems are not the same as grid-tie solar systems. With an off-grid system, you are entirely independent of the grid and 100% responsible for your power needs. You won't be able to harness extra electricity from the utility company. Learn more about off-grid vs. grid-tie systems. Ready to add an off-grid solar system to your home?

.

Do you need a backup gas generator for an off-grid Solar System?

off-grid systems must include a source of backup power. For most people, that means adding a backup gas generator to get through periods of low solar production. Before you size your off-grid solar system, consider whether you can take measures to reduce your energy usage.

Should you invest in an off-grid Solar System?

Access to electricity shouldn't be a luxury. For homes in remote areas or those seeking energy independence, an off-grid solar system offers a powerful solution. It enables households to generate, store, and use their own electricity without relying on the grid.
