

Belgrade substation energy storage project

Overview

The project is one of the central elements of the large-scale BeoGrid 2025 investment program, valued at 205 million euro. The goal is to modernize the power transmission system, increase the capacity of strategic routes, and strengthen Serbia's regional connectivity in the energy.

The project is one of the central elements of the large-scale BeoGrid 2025 investment program, valued at 205 million euro. The goal is to modernize the power transmission system, increase the capacity of strategic routes, and strengthen Serbia's regional connectivity in the energy.

Serbia's electricity transmission operator EMS has signed a contract with a consortium of construction firms to build the new 400/110 kV Belgrade 50 substation in Ugrinovci. The project, worth around 50 million euros, is scheduled for completion in 2027. The substation will feature complete 400 kV.

Elektromreža Srbije (EMS) announced that it has signed a contract for the construction of a new 400/110 kV substation, Belgrade 50, located in Ugrinovci. The project is valued at around €50 million, with completion planned for 2027. According to the statement, the project includes the installation.

Elektromreza Srbije (EMS), Serbia's power grid operator, has signed a \$58 million (€50 million) contract for the construction of a 400/110 kV substation in Belgrade. The substation, named TS Beograd 50, is part of the broader BeoGrid 2025 project, which has a total value of \$238 million (€205).

Serbian electricity transmission system operator Elektromreža Srbije (EMS) has launched one of its most important infrastructure projects of the decade after signing a contract for the construction of a new 400/110 kV substation in Belgrade worth 50 million euro. This was reported by.

Serbia has launched works as part of the BeoGrid 2025 project, aimed at improving the power transmission infrastructure in Serbia, the region, and Europe, as well as facilitating electricity offtake from renewable energy power plants in the South Banat region of Vojvodina. The BeoGrid 2025 project.
