

# Bess battery storage for sale in lisbon

## Overview

---

Does greenvolt have a Bess project in Portugal?

Greenvolt and Galp have both deployed 5MW BESS projects in Portugal in the past. In eastern Europe, Moldova is in the process of completing a bidding process for the procurement of a 75MW BESS and 22MW internal combustion engine (ICE) project, called the Moldova Energy Security Project (MESA).

What are the benefits of using Bess with gas engines?

Pairing BESS with gas engines can enhance performance and provide cheaper, cleaner, and a more resilient power solution. In addition, the inclusion of a flywheel inertia solution can provide additional system stability, fast response, and optimisation of battery life.

What is Bess & how does it work?

BESS can minimise transmission owner and distribution network operator reinforcement costs and reduce congestion management whilst also control voltage, provide reserves and ancillary services, and maintain resilience of network electricity supply.
