Liquid cooled outdoor 215KWH 100KW lithium battery energy storage system cabinet is an energy storage device based on lithium-ion batteries, which uses lithium-ion batteries as energy storage components inside. It has the characteristics of high energy density, high charging and discharging power.

The all-in-one outdoor energy cabinet is equipped with multiple safety features: local failure isolation design, zero battery parallel capacity loss, multi-level early warning protection, double fire warning protection, and intelligent temperature control system. The solution uses long-life lithium.

ECE One-stop outdoor solar battery storage cabinet is a beautifully designed turnkey solution for energy storage system. This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage.
