

Construction of new energy storage project in santo domingo

Overview

How will a new power plant benefit the Dominican Republic?

The new power plant will be based on its predecessor, the Estrella del Mar III. When completed, it will enhance the Dominican Republic's energy infrastructure with greater efficiency, flexibility and sustainability.

Who is delivering Estrella del Mar IV in Dominican Republic?

ST Engineering's Marine business and Siemens Energy have been awarded a second contract to deliver Estrella del Mar IV in Dominican Republic.

Can floating power plants overcome land and infrastructure constraints?

"Floating power plants like Estrella del Mar IV demonstrate how innovative engineering can overcome land and infrastructure constraints, while delivering reliable and resilient energy," said Andreas Pistauer, Global Head of Sales for Gas Services at Siemens Energy. The Estrella del Mar III was commissioned in 2022.

Why should you build a power plant in Singapore?

By constructing the plant in Singapore and delivering it as a complete plug-and-play solution, the project reduces both cost and construction time compared to a land-based power facility.
