

Customized portable power supply recommendation

Overview

Do I need a custom power supply?

Unfortunately, most audio products (DACs, amplifiers, servers) will require a custom solution. In essence, a better power supply will sonically “align” the complex analog and digital signal into something that’s properly outlined and shaped. This alignment is responsible for the tighter lines and an overall more insightful listening experience.

Do you need an adjustable power supply?

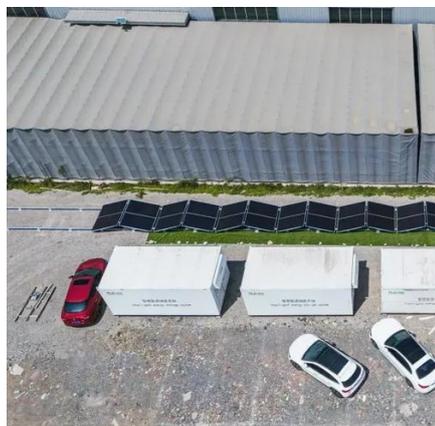

Everyone sometimes needs an adjustable power supply. Bench power supplies are expensive and therefore we usually use what's available. The most well known power supplies of a high current low voltage are AT or ATX supplies from computers.

Why should you choose XP Power?

Short project timelines. Stringent safety requirements. There are many reasons you might need a custom power solution, and just as many reasons to choose XP Power as your custom power partner. With dedicated local support from concept through to production and end of life, we can work as a trusted extension of your own engineering team.
