

Data Center User External Cabinet Vertical

Overview

How does a data center server cabinet work?

Each rack comes built with recessed casters, allowing for clearance through a standard height doorway. The casters have the ability to move while fully populated with 3000lbs. Once the Data Center Server Cabinet is rolled into place, it can then be set on the leveling feet. Tool-less install and reversible, all doors (front and rear) pivot 180°.

What size is a server cabinet?

Perfect for any server room or data center, the enclosed server cabinet comes fully assembled in 42U or 48U height. The 42U or 48U rack options come with 4 vertical cable management bars to organize cables and support power distribution. Constructed from 13 GA steel, the rack frame is finished with a black powder coat.

What is an enclosed server cabinet?

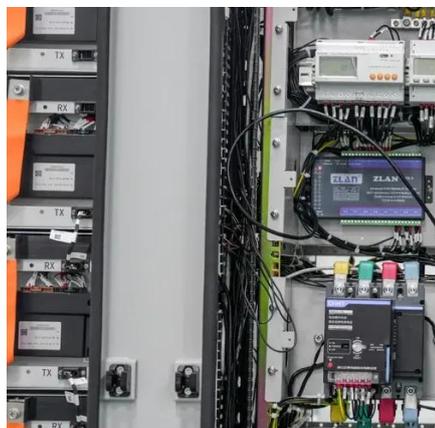

The enclosed server cabinet meets EIA standard for 19" server racks and is compatible with rack-mount servers, networking, and telecommunications equipment from Dell, HP, IBM, and other brands. Perfect for any server room or data center, the enclosed server cabinet comes fully assembled in 42U or 48U height.

What is a rs148 data center server cabinet?

Our RS148 Data Center Server Cabinet provides a secure solution for rack-mount equipment in IT environments. The enclosed server cabinet meets EIA standard for 19" server racks and is compatible with rack-mount servers, networking, and telecommunications equipment from Dell, HP, IBM, and other brands.
