

Electromagnetic energy storage solution design in milan italy

Overview

Is Italy ready to build a new energy storage project?

Already leading Europe's rankings, Italy is driving progress with its 50 GWh battery capacity target by 2030 and the opening of ancillary markets to energy storage participation. Join us at the 3th edition of RENMAD Storage Italia 2026, where we'll present a comprehensive view on how to bring your project to optimal RTB (ready-to-build) conditions.

What are energy storage technologies?

Energy storage technologies, including lithium-ion batteries and solid-state batteries, increase energy storage capacity and efficiency, while extending battery life and reducing maintenance costs. Poseidon Hyperes focuses on advanced energy storage solutions that improve the efficiency and reliability of renewable energy systems.

What is the energy storage industry?

Energy Storage forms part of the Energy industry, which is the 15th most popular industry and market group.
