

# Emergency user outdoor energy storage cabinet 19 inches

## Overview

---

What is an energy storage cabinet?

**ENERGY STORAGE SYSTEM CABINET.** A cabinet containing components of the energy storage system that is included in the UL 9540 listing for the system. Personnel are not able to enter the enclosure, other than reaching in to access components for maintenance purposes.

Are outdoor energy storage systems safe?

NYSERDA recommends that all outdoor energy storage systems exceeding the applicable MAQs in aggregate, regardless of enclosure type and/or classification, meet all applicable safety requirements as outlined in Table 1206.15 of the Uniform Code, including any technology-specific requirements detailed in Table 1206.13.

Where should energy storage system signs be provided?

**1206.11.8 Signage.** Approved signs shall be provided on or adjacent to all entry doors to energy storage system rooms or areas, to walk-in energy storage system units located outdoors, on rooftops, or in open parking garages, and on enclosures of energy storage system cabinets.

Can energy storage systems be installed outside?

Energy storage systems shall be permitted to be installed outdoors on exterior walls of buildings when all of the following conditions are met: The maximum energy capacity of individual energy storage system units shall not exceed 20 kWh. The energy storage system shall comply with applicable requirements in Section 1206.15.
