

Energy storage vehicle solution in gothenburg sweden

Overview

What is Battery Centre Gothenburg?

It will be 100 percent powered by fossil-free energy and the aim is to supply batteries for approximately half a million electric cars per year. Nearby at Lindholmen, Battery Centre Gothenburg will open on 24 January. There, both industrial personnel and students will be trained and educated in battery technology and production.

Is Gothenburg a battery cluster?

Gothenburg is an innovation hub and a leader in the transition towards sustainable industry. Now a battery cluster is taking shape, characterised by something that has served the region well: collaboration. SEEL Swedish Electric Transport Laboratory, Sweden's testbed for electromobility.

What's going on in Gothenburg?

Gothenburg is a hub for innovation and at the forefront of sustainable industry. Now a battery cluster is taking shape, characterised by something that has served the region well: collaboration. Near Volvo Car's production plant and new battery assembly factory in Torslanda, a gigafactory is under construction.

Why is Gothenburg a good place to live?

Gothenburg is one of the most significant and vibrant vehicle development hubs in Europe, and a driving force in Sweden's green transition in the transport sector. The automotive and mobility sector employs around 51,000 people in the region. Strength areas include electrification, autonomous driving, sustainable mobility and connectivity.
