Designed for easy installation behind existing gable or passive vents, this fan is ideal for tile roofs and homes with pre-installed venting. Choose between 30W (up to 2,000 sq/ft) or 45W (up to 2,800 sq/ft) solar panel options for optimal airflow and cooling. Mounted from the inside-out, the fan.

When shadows limit sun exposure and minimize the performance of your Solar Star Attic Fan, supplement your ventilation system with the RM 1500 Add-on Panel. This sleek solution ensures continuous operation throughout the day by resolving issues related. Solar Star Thermal Switch Temperature.

Solar-powered roof vents can ventilate up to 1,200 square feet of space when you position them under direct sunlight. For more information on types of roof vents, check out our how-to guide on the subject, Install Attic Ventilation. Frequently Asked Questions Q: What's a power roof ventilator?

A: A.

Powered completely by free solar energy, this sleek and efficient vent is both compact and quiet. It was designed specifically for gable openings already present in residential homes. Fully operational right from the box, it installs easily with no electrical wiring. Available in 3 solar panel.
