High-efficiency IP55 outdoor cabinet for train stations

Overview

The NEMA 3 / IP55 Outdoor Cabinet is engineered to protect critical equipment in harsh environments, making it ideal for telecom base stations, traffic control systems, energy monitoring, and industrial automation.

The NEMA 3 / IP55 Outdoor Cabinet is engineered to protect critical equipment in harsh environments, making it ideal for telecom base stations, traffic control systems, energy monitoring, and industrial automation.

KDST offers custom outdoor enclosures with IP55 to IP67 and NEMA 3R to 6 ratings, suitable for harsh environments. Our products include stainless steel, galvanized steel, and aluminum in various sizes and finishes. Using 304, 316/316L stainless steel and 5052 aluminum ensures durability. Beyond.

The comprehensive range of rail certified standard electronics enclosures demonstrates resiliency and safe railway system operation every day on-board and trackside every day on-board and trackside for high speed rail systems and metro. Thanks to a modular platform, nVent SCHROFF railway, cabinets.

IP55, IP65 or NEMA rated Outdoor enclosures for wall or pole mounting, made of High-quality mild steel,aluminum or stainless steel, can connect and protect your critical assets in virtually any environment. AZE's wall / pole mount 19 inch outdoor rack enclosures are designed with durble powder.

For outdoor server and network applications, the weatherproof rack cabinet is designed to protect equipment from water, environmental elements, and debris. With front and rear doors, allows easy access for installation and maintenance while the o-ring around each door creates a water resistant seal.

Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, which allow installation of standard 19" equipment. Support custom-made. Includes: locking door with air.

The IP55 Rating classification defines outdoor enclosures engineered for superior protection against dust and low-pressure water jets from any direction. This rating ensures that equipment inside remains fully operational under moderate to heavy

rain, wind-driven dust, and humid outdoor.
