

# Highly efficient integrated energy storage cabinet for emergency command

## Overview

---

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO<sub>4</sub>) batteries with scalable capacities, supporting on-grid and off-grid configurations for reliable energy.

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO<sub>4</sub>) batteries with scalable capacities, supporting on-grid and off-grid configurations for reliable energy.

Multi-dimensional use, stronger compatibility, meeting multi-dimensional production and life applications High integration, modular design, and single/multi-cabinet expansion Zero capacity loss, 10 times faster multi-cabinet response, and innovative group control technology Meet various industrial.

Against this backdrop, BAK Battery has launched the ENDURO S+ liquid-cooled integrated energy storage cabinet for commercial and industrial applications. It is equipped with BAK's self-developed 314Ah high-capacity cell, featuring a long cycle life of 10,000 cycles, an impressive energy density of.

Our energy storage cabinet, evolved through four generations of R&D since 2009, is built to address diverse industrial and commercial energy demands. It proficiently handles peak shaving, virtual power plant participation, backup power supply, and three-phase unbalance management. As a trusted.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC-compliant energy storage systems designed for renewable integration, peak shaving, and backup power.

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO<sub>4</sub>) batteries with scalable capacities, supporting on-grid and off-grid configurations for reliable energy storage solutions. Supports.

Highjoule's industrial and commercial energy storage system adopts an integrated

design concept, with integrated batteries, battery management system BMS, energy management system EMS, modular converter PCS and fire protection system in one. It helps enterprises reduce energy costs, increase green.
