

Hot sale wholesale solar power system buyer

Overview

Should you buy solar panels from a wholesale company?

Other companies purchase surplus or discontinued models and resell them to homeowners. But take care. Older panels may not meet modern efficiency or technical specifications. Purchasing wholesale solar panels can save you money, but it's easy to get burned. Learn how to get the best deals and be a smart wholesale buyer.

Do wholesale solar panels come on pallets?

Our wholesale solar panels come on pallets, offering you the perfect wholesale solar panel solution for larger projects or resellers. Whether you're outfitting a commercial property or stocking up for a residential install, these pallets of solar panels provide high-quality performance at unbeatable prices.

How do distributors buy solar systems?

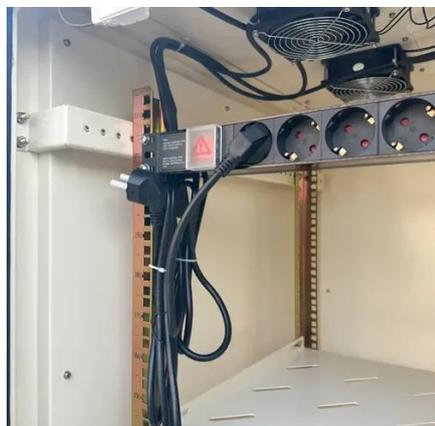

In the past, distributors (a.k.a. middlemen) purchased manufacturers' products in bulk quantities, then delivered them to the stores where you buy them. Today's online, global economy makes this equation more complicated. Here are the avenues for buying solar systems today:.

How much does a solar system cost?

While it might be easy to find prices advertised as "wholesale," discount pricing doesn't really kick in until you buy larger quantities than most homes need (at least 30 panels, often more). 2. You know you've gotten a great deal on an installed solar system when you're paying about \$3.40 per watt.
