While it's difficult to give an exact "price tag" without knowing your configuration and requirements, we can provide some typical starting points: These prices exclude freight, delivery, installation, software setup and configuration, as well as any ongoing licensing or support fees. There's no.

Thanks to the modular and compact column design, our outdoor parcel locker maximizes capacity per square meter, making it incredibly efficient. Parcel lockers help to reduce delivery and operations time. Logistics companies can easily scale their performance, which is particularly critical during.

Outdoor smart lockers equipped with heavy-gauge steel construction and added protective features offer the ideal solution. Outdoor lockers are ready for anything — they're built with heavy-gauge steel and equipped with a weather shelter, extra

weather stripping, and LED night lamps. No space left.

Another key feature is the size flexibility of the lockers. Because the operating module is significantly more cost-effective—sometimes up to 10 times cheaper—there's less pressure to distribute the costs of a PC, screen, and installation across numerous compartments. This makes it economically. How long do off-grid parcel lockers last?

Battery Power Information The battery, which powers these off-grid parcel lockers, boasts a lifespan of 2 to 3 years. Notably, while the current protocol requires a technical visit for battery replacement, Omnic is innovating to make this process even more efficient.

Are kepol parcel lockers good for outdoor use?

KePol parcel lockers by KEBA boasts a rugged design, making it ideal for both indoor and outdoor use. Its resilience is evident in its ability to withstand varying environmental conditions, from the coldest winters to the hottest summers and even wet, rainy days.

Why do outdoor lockers cost more than indoor lockers?

Outdoor lockers require weather-resistant materials, insulation, and ventilation—resulting in a higher build cost compared to indoor units. Additional features like temperature control, remote monitoring, advanced access methods (QR, RFID, biometric), or branded wraps and customised UI will affect the final cost.

Are Keba parcel lockers eco-friendly?

The lockers are available in two primary series: the FS-Series, which is KEBA's most feature rich parcel locker series, and the Flex-Series, which enables quick and cost-saving installations. Both series are designed to ensure 24/7 availability, emphasizing their reliability and come in an energy-saving and autonomous eco-version.
