

Huawei processes energy storage vehicle spare parts equipment

Overview

What is Huawei driveone?

High performance, power density, reliability, and EMC. Huawei DriveONE provides integrated electric drive powertrain solutions for new energy vehicles, combining efficient motors and intelligent control to improve EV performance.

Are Huawei & SAIC planning a new energy vehicle production base?

According to the reports, Huawei and SAIC are now penning agreements with the Lingang New Area to create a new line of energy vehicles (EV) and battery plants to power them. The aim of this agreement with the Lingang in Shanghai's free trade zone is to build the "Shangjie High-end Intelligent New Energy Vehicle Production Base".

What is Huawei EV technology?

Huawei has developed full-scenario mobility solutions for EVs, empowering automakers to build high-quality vehicles, enhance the driving experience, and drive progress toward a greener future. AI flash charging with full-stack high voltage design to enhance driving experience. X-in-1, hyper-converged architecture for ultra-fast charging.

What services does Huawei provide?

Distribution products: In principle, Huawei provides direct services only for value-added partners (VAPs) and remote technical support and spare parts services for end customers (installers and owners) of VAPs. Huawei services are available in distribution scenarios to provide original manufacturer services for end customers.
