

# Large-scale manufacturer of intelligent photovoltaic energy storage battery cabinets

## Overview

---

As a professional manufacturer in China, produces both energy storage cabinets and battery cell in-house, ensuring full quality control across the entire production process. Our Industrial and Commercial BESS offer scalable, reliable, and cost-effective energy.

As a professional manufacturer in China, produces both energy storage cabinets and battery cell in-house, ensuring full quality control across the entire production process. Our Industrial and Commercial BESS offer scalable, reliable, and cost-effective energy solutions for large-scale operations.

With 15 years of innovation in battery and power systems, Wenergy manufactures battery energy storage system that integrates energy management into a modular, compact, and easy-to-deploy solution. Whether combined with EV charging, rooftop solar, wind, or other renewable sources, our system helps.

With 100kW PCS and 215kWh of LiFePO<sub>4</sub> battery storage, it delivers robust, efficient, and versatile energy management. This solution integrates advanced BMS and EMS technologies to provide real-time monitoring, load shifting, and seamless PV integration. Its durable construction ensures dependable.

Multi-dimensional use, stronger compatibility, meeting multi-dimensional production and life applications High integration, modular design, and single/multi-cabinet expansion Zero capacity loss, 10 times faster multi-cabinet response, and innovative group control technology Meet various industrial.

HMX Energy Co., Ltd is a technology company that produces Battery Energy Storage systems (BESS), portable power stations, and lithium battery packs and solar inverters. We have a strong R&D team, many of whom have previously worked at Huawei and BYD, with rich expertise in new energy. Professional.

High-Capacity Energy Storage Cabinet Manufacturer for C&I MECC energy storage

cabinets are integrated solutions combining LiFePO<sub>4</sub> battery modules, intelligent BMS, PCS (Power Conversion System), and thermal management systems, designed for commercial & industrial (C&I) and utility-scale energy.
