

# Large-scale wholesale of solar cell cabinets in India

## Overview

---

What is India's solar cell manufacturing capacity?

Currently, India's solar cell manufacturing capacity stands at around 7 GW, compared to the much larger 70 GW module market. The addressable market for solar cell manufacturing is projected to grow 7-8 times by 2030, reaching around 49-50 gigawatts (GW), according to Mohd Saif, Partner at EY India's Power and Utilities Practice.

Who are the top solar cell manufacturers in India?

This entry was posted in top 10 manufacturers and tagged renewable energy, solar energy, top solar cell manufacturers in india. Some of the top solar cell manufacturers in India include Tata Power Solar, Adani Solar, Vikram Solar, and Waaree Energies.

What is India's solar production capacity?

India's solar manufacturing capacity continues to accelerate, with module production reaching 68.4 GW, aiming to surpass 120 GW by 2030. Solar cell production currently stands at 24.6 GW and is expected to hit 65 GW within the same timeframe.

How big is India's solar supply chain?

The updated solar supply chain map of India published by Sinovoltaics, an internationally operating quality assurance firm headquartered in Hong Kong, indicates module capacity of 68.4 GW, cell capacity at 24.56 GW, and ingots at 14 GW.

## Large-scale wholesale of solar cell cabinets in India
