

Latin American Outdoor Energy Storage Cabinet 500kWh

Overview

Who invests in energy storage in Chile?

The utility scale segment dominates Chile's energy storage landscape. Large power generation companies are the primary investors in BESS, usually pairing them with renewable plants. Key players include Engie, AES Andes (AES), Enel, and Colbún, who are deploying batteries to provide firm capacity and ancillary services.

Will Panama be a model for energy storage in Central America?

Panama made history with its 2024 tender for 500 MW of renewables plus storage, aiming for 120–150 MW of BESS deployment. This represents the first market-based approach to energy storage in Central America, potentially serving as a model for the region.

Where is the largest C&I battery installation in Latin America?

Local developers like Quartux and ON Energy have installed dozens of MWh of behind-the-meter batteries at hotels, resorts, and factories in tourist regions like Cancún - A 25 MWh C&I battery by Quartux in Cancún is cited as the largest C&I installation in Latin America.

What makes Chile a leader in battery storage?

Chile remains the regional leader in battery storage, thanks to a combination of ambitious renewable target (60% renewable share of all energy use by 2030), advanced regulatory frameworks, and successful project execution. Some of Chile's market highlights include:
