## Overview

---

What is a Modular outdoor Cabinet energy storage system?

This solution uses 5 sets of 100kW/215kWh modular outdoor cabinet energy storage system, which support up to 15 units in parallel. It's an ideal choice for application scenarios such as factories, residential areas, shopping centers, hospitals, and hotels. The solution is specially designed to solve the problem of photovoltaic consumption.

How many units can a modular energy storage system support?

This solution uses 5 sets of modular outdoor cabinet energy storage system, which supports up to 15 units in parallel. It's an ideal choice for peak-shaving and valley-filling in zero-carbon parks and villa communities.

What is a modular energy system?

Modular systems allow scalability for different energy needs. Outdoor-rated enclosures (e.g., NEMA 3R, IP65) protect against weather and environmental hazards. Compatible with renewable energy sources, grid-tied systems, or off-grid applications. Supports various configurations (single-phase or three-phase).
