

Mogadishu solar energy storage power generation company

Overview

Could solar power replace diesel generators in Mogadishu?

One of the biggest electricity companies in Mogadishu, BECO, set up a solar plant to supplement and, in the long run, potentially replace diesel generators that individuals and businesses have been using for decades, the company said. FILE - Children play under the solar powered street lights at a refugee camp in Mogadishu, July 11, 2013.

How has solar power benefited Mogadishu?

BECO, which provides electricity services to 280,000 customers in Mogadishu, set up its first solar plant in 2016. Solar power has helped reduce the price of electricity for BECO customers from \$1.20 per kilowatt to just 36 cents per kilowatt. "Economically, the public benefited with cheaper electricity.

Can solar power replace diesel generators in Somalia?

A surge in solar power Another source of energy gaining traction in Somalia is solar power. One of the biggest electricity companies in Mogadishu, BECO, set up a solar plant to supplement and, in the long run, potentially replace diesel generators that individuals and businesses have been using for decades, the company said.
