

New zealand auckland communications solar battery cabinet

Overview

Why do New Zealand homes need battery storage?

In most New Zealand homes, a large proportion of the energy produced by solar panels is sent back to the grid because it's generated when it's not needed, i.e., the middle of the day. However, adding home battery storage to a new or existing solar power system allows you to store your unused energy.

What is a PowerVault solar cabinet?

The PowerVault is MEDA's flagship prebuilt solar cabinet — our most powerful and scalable system to date. Designed to meet the needs of serious off-grid homes, rural properties, and remote commercial setups, it comes fully assembled with premium Victron and Dyness components and is housed in a heavy-duty, IP-rated cabinet.
