Galvanized Steel: Galvanized steel outdoor cabinets are commonly used for telecom equipment because of their high tensile strength and compressive strength, ideal for protecting sensitive telecom gear. However, they may need additional coatings for enhanced corrosion resistance. Stainless Steel:

ETA Enclosures USA provides electrical enclosures designed for the extreme conditions of the oil, gas, and petrochemical industries. Our enclosures are engineered to protect sensitive electrical and control equipment in hazardous locations, ensuring compliance with industry safety standards.

E-abel's NEMA 4X electrical enclosures are specially built to withstand both

aggressive weather and corrosive atmospheres. Ideal for outdoor and washdown applications, the 4X series adds corrosion resistance (via stainless steel or non-metallic materials) on top of NEMA 4-level protection. This.
