

Outdoor telecom enclosure for agricultural irrigation

Overview

What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

What is a smart irrigation controller enclosure?

Manufactured from marine-grade stainless steel, anodized aluminum, or corrosion-resistant plastics, Smart irrigation controller enclosures are designed to withstand saltwater and chemical exposure. Optional internal coatings or sacrificial anodes provide additional protection, ensuring long-term durability in corrosive environments.

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature, moisture, ice, shock hazards, and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.

What are outdoor electrical cabinets & enclosures?

Browse our range of outdoor electrical cabinets and enclosures and discover why we're a trusted name in the telecom industry. An outdoor telecom enclosure is a specialized cabinet designed to house and protect telecommunications equipment in outdoor environments.
