

Poland three-phase communication cabinet manufacturer

Overview

Who makes switchgear cabinets?

At TRIPS Automatyka Polska, we are experts in the manufacturing of switchgear cabinets and specialize in providing high-quality switchgear tailored to the unique needs of various sectors: Energy: Efficient and robust switchgear for renewable energy systems, power generation, and distribution networks.

What is a zpas cabinet?

The profile has open spaces in a few planes, which allows to better use the space inside the cabinet for various types of frame constructions with the use of ZPAS S.A. production support beams. The cabinet is ideal for electric power switching stations or control and automated technology cabinets, when using an support panel.

What are substation pole cabinets used for?

Substation pole cabinets for the distribution and measurement of electricity directly after the transformer in overhead MV / LV substations. Free-standing DIN enclosures. Used as LV electrical switchgears as well as cable, metering and protecting (electronic devices) cabinets.

Where are our cabinets made?

We regularly produce for major manufacturers and installation companies in Poland and abroad. Our cabinets are sold to Germany, Spain, France, Czechia, Russia, Italy and a few Asian countries. We have a team of highly qualified, experienced installators. The cabinets are assembled from the components chosen by the customer.
