

# Price quote for 100kW photovoltaic cabinets for Indian airports

## Overview

---

How much does a 100 kW solar panel cost in India?

Subsidy and ROI Calculations Included The 100 kW solar panel system price in India in 2025 for on-grid DCR subsidy projects ranges between ~Rs. 40,000\* to ~Rs. 45,000\* per kW + 13.8% GST, after you receive a subsidy.

Why is a 100kW Solar System a good investment in India?

Due to fewer components, an on-grid 100kW solar system cost in India is the lowest among all the three types of solar systems. During peak sun hours on sunny days, your solar panels are likely to generate a surplus. All the unused solar energy is fed to the grid in return for solar credits.

What is a 100kW Solar System in India?

Aside from the main solar components (solar panels and a solar inverter), the system is equipped with a net metering system to record the flow of power between the grid and your solar system. Due to fewer components, an on-grid 100kW solar system cost in India is the lowest among all the three types of solar systems.

Which subsidy is available for rooftop solar panels in India?

For rooftop solar plants installed for residential use all over India, the following Central Financial Assistance (CFA)/ Central Government Subsidy are available. Note: \*The subsidy amount is fixed for rooftop solar systems of 3 kW and above capacity. The CFA calculations below illustrate the estimated prices of 25kW solar panel systems in India.
