

Purchase link for 1m-series inverter cabinet

Overview

What is a rectifier / inverter system cabinet?

Rectifier / inverter system cabinet of reduced height, populated with inverter modules, "EUE" electronic bypass switch and manual bypass, together with rectifier modules. You get the most economical solution and benefit in the long term from the direct link to BENNING as the manufacturer.

What are the specifications of inverter cabinets & enclosures?

Inverter Cabinets & Enclosures - SSR-3KVA are available in finish specifications including height of 365 mm, width of 238 mm and depth of 485 mm. Featuring quality construction & fabrication standards, these inverter cabinets and enclosures can be developed as per the design specified by customers.

Why should you choose Benning inverter systems?

With BENNING's INVERTRONIC compact range of inverters, the company offers highly reliable, cost-effective, single-phase, modular inverter systems which provide high-quality, maximum-reliability electrical power to the critical loads.

What is a compact inverter system?

INVERTRONIC compact inverter systems and their racks, comprising hot-swapping 1/5 19" rack modules with a range of 3 heights, are characterised by their modular architecture. Electronic bypass switch assures system availability, enables interruption-free switching and is available in two power ratings.
