

Resort uses 10kw off-grid bess cabinet from buster

 **TAX FREE**    

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Overview

What is a small BESS cabinet?

Small BESS Cabinets The small BESS series is a fully integrated battery energy storage system that's built to last. The Series is both scalable and engineered for modularity with a low MTTR, making it ideal for medium renewable energy projects.

What are the different types of BESS cabinets?

Our BESS is modular, which means you can mix and match cabinets to suit your system requirements. Plus, it comes in two variants, AC Single Bay and AC Dual Bay. **Medium BESS Cabinets** The medium series battery energy storage system is designed with versatility and scalability in mind.

How do I build a BESS all-in-one cabinet?

Steps to Build a BESS All-in-One Cabinet 1. **Planning and Design** Determine the power capacity (kW) and energy storage capacity (kWh) required for the system. Decide on the use case (residential, commercial, or utility-scale) to ensure the system meets the specific needs. Choose the battery technology (lithium-ion, LiFePO₄, etc.).

What is a large BESS cabinet?

Large BESS Cabinets Our large BESS Series features an AC single bay module capable of 29.7kW with options available up to 1MW clusters. These modules are perfect for on-grid solutions, providing reliable power for your applications. They are fully customisable and versatile, suitable for almost any on-grid application.
