

# Romania household energy storage subsidies

## Overview

---

The Romanian Ministry of Energy launched a grant program funded by the Modernization Fund. It offers €150 million to support building battery storage systems connected to existing renewable energy sources (wind, solar, hydro).

The Romanian Ministry of Energy launched a grant program funded by the Modernization Fund. It offers €150 million to support building battery storage systems connected to existing renewable energy sources (wind, solar, hydro).

The Romanian Ministry of Energy launched a grant program funded by the Modernization Fund. It offers €150 million to support building battery storage systems connected to existing renewable energy sources (wind, solar, hydro). These batteries must utilize at least 75% of their energy from the.

On 17 September 2024, the Ministry of Energy of Romania launched a State aid scheme to support investments in the development of electricity storage capacities. The scheme aims to finance the establishment of storage capacities connected to renewable energy sources, including hydroelectric power.

Romania's Ministry of Energy has announced a new €150 million funding call under the Modernisation Fund to support investments in battery storage, enabling the use of renewable energy even during periods without wind or sunlight. The initiative aims to enhance energy system balance and reduce costs.

The Romanian Ministry of Energy has announced a new round of funding from the Modernization Fund dedicated to battery energy storage systems. Minister Burduja during his recent visit to Romania's largest operating BESS project with an installed capacity of 24 MWh Image: Monsson From ESS News.

The Ministry of Energy announces the launch of the call for projects "Supporting investments in the development of electrical energy storage capacities (batteries)" with funding from the Modernization Fund, within Key Program 1 - Renewable energy sources and energy storage. The general objective.

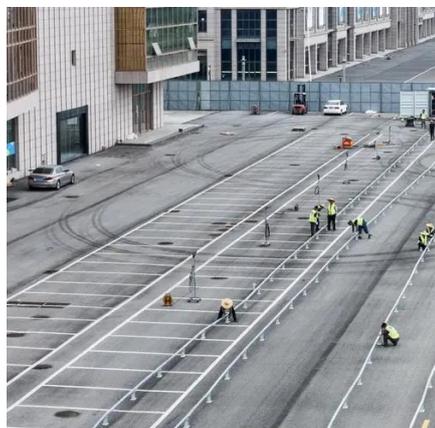

In 2022, Romanian Ministry of Energy launched a state aid scheme supporting of investments in building manufacturing capacity for production, assembly and recycling of batteries, photovoltaic cells and panels with a total allocation of EUR

260 million. The scheme also supports investments in.

## Romania household energy storage subsidies
