

Single-phase customer support for outdoor telecom enclosures used in shopping malls

Overview

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Why should you choose Shield for your outdoor telecom enclosure?

This solution is also ideal for rapid deployment at the network edge. SHIELD offers a wide range of customization features for your outdoor telecom enclosures such as machining, special dimensions, custom colors, and additional protection for harsh environment.

Why do you need a telecom enclosure?

NEMA developed scrupulous testing procedures to ensure these telecom enclosures offer enhanced protection from criminal elements and extreme weather conditions such as snow and ice, driving rain, wind-blown debris, and heat. At ArmorLogix, we have the products you need to protect and support all of your telecom operations.

Does rackmount solutions offer outdoor enclosures?

Rackmount Solutions also carries outdoor enclosures for your telecom and industry needs. From 16" to 90" heights, from 25" to 42" of depth, we can help size the right enclosure for your site. Our selection include NEMA 4 and 4x rated cabinets along with air conditioning or heating based on your environment.
