

Sofia Microgrid Energy Storage Outdoor Cabinet 1MWh

Overview

What is a Megatrons 1MW battery energy storage system?

MEGATRONS 1MW Battery Energy Storage System is the ideal fit for AC coupled grid and commercial applications. Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including fire suppression.

How do Elm microgrid systems work?

ELM's MicroGrid systems operate in unison with the public grid to offer energy security, cost savings and storage for commercial or industrial zones. ELM's Utility Scale MicroGrids are pre-wired, pre-tested and assembled in a UL 508 shop to ensure reliability and high quality production.

Why do we need a microgrid?

A microgrid not only provides backup for the grid in case of emergencies, but can also be used to cut costs, or connect to a local resource that is too small or unreliable for traditional grid use. A microgrid allows communities to be more energy independent and, in some cases, more environmentally friendly.
