

Solar energy storage cabinet lithium battery uninterruptible power supply

Overview

What is uninterruptible power supply (UPS)?

Uninterruptible power supply (UPS) is the last line of defense to ensure the safe and stable operation of the key equipment of the communication base station. There are many stringent requirements on the security and reliability of BMS, and dauntu energy storage has made full preparations.

Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.

Why should you choose dauntu energy storage?

There are many stringent requirements on the security and reliability of BMS, and dauntu energy storage has made full preparations. From core chip selection to system-level architecture, we guarantee the safety and reliability of battery products in an all-round and real-time manner.

How do we ensure the safety and reliability of battery products?

From core chip selection to system-level architecture, we guarantee the safety and reliability of battery products in an all-round and real-time manner. Through multi-branch design, we fully and fully monitor battery voltage, power, temperature, communication and other states to ensure the normal operation of the power system.

Solar energy storage cabinet lithium battery uninterruptible power su

FLEXIBLE SETTING OF MULTIPLE WORKING MODES
