

Sri lanka energy storage power supply manufacturer

Overview

We are Volpack Energy, a Sri Lanka-based company driving the future of sustainable energy storage. Our team of innovators designs advanced supercapacitors that charge faster and store more energy than traditional solutions, tackling the high cost of energy and the challenges of.

We are Volpack Energy, a Sri Lanka-based company driving the future of sustainable energy storage. Our team of innovators designs advanced supercapacitors that charge faster and store more energy than traditional solutions, tackling the high cost of energy and the challenges of.

Ceylon Petroleum Storage Terminals Limited (CPSTL) specializes in the storage and distribution of petroleum products in Sri Lanka, ensuring quality through advanced laboratory testing and robust infrastructure. Their commitment to safety and environmental standards positions them as a key player in.

When we first set out to build Volpack Energy, the idea of manufacturing next-generation energy storage right here in Sri Lanka felt like a massive long shot. Our ambition was to create supercapacitors with 4x the energy capacity at half the cost of existing options a goal we knew was both simple.

Anka EnergyX is a 100% owned subsidiary of Anka Corporation, a company that is dedicated to the development and implementation of next-generation energy technologies. Anka EnergyX is committed to not only sharing these technologies but also identifying clients who require such solutions to.

By utilizing advanced tech solutions, such as Battery Energy Storage Systems (BESS), we can unlock the full potential of these resources. Bureau Veritas supports accelerated BESS installation deployment with dedicated solutions for project developers, Engineering, Procurement and Construction.

Founded in 2012 and headquartered in Navinna, Maharagama, Genso Power is a pioneer in Sri Lanka's solar net-metering sector. They provide residential, commercial, and industrial solar solutions including net-metered, hybrid/off-grid systems, solar lighting, energy storage, and portable backup.
