

Supplier of energy storage cabinet on the grid side in milan italy

Overview

Why should we invest in Italy's digitised energy infrastructures?

The company's commitment translates into both proprietary solutions and adaptation - already today - to the most stringent EU requirements for digitised energy infrastructures. The Italian storage market also represents a key test bed for large-scale integration of renewables and smart grid management.

Is energy dome a viable alternative to energy storage?

Today, the Energy Dome is the only viable alternative to energy storage, using proprietary CO2 cells to deliver solar and wind energy. As a dynamic company, Energy Dome is committed to long-term energy storage solutions that unlock the potential of renewable energy through CO2 batteries.

What does Google's Energy Dome partnership mean for data centers?

The idea is to provide electricity-guzzling data centers with round-the-clock clean energy, even when the sun isn't shining or the wind isn't blowing. The partnership with Energy Dome, announced in July, marked Google's first investment in long-duration energy storage.

How do I access the energy storage monitoring system?

The Energy Storage monitoring system is accessible from PC, smartphone and tablet through our portal or on mobile or tablet through the appropriate App downloadable with Android or IOS.

Supplier of energy storage cabinet on the grid side in milan italy
