

Swiss smart solar battery cabinet company

Overview

What is a solar energy Battery Cabinet?

The solar energy battery cabinet was designed for battery installations, due to a cabinet of this design's scarce availability that was suitable for a variety of lithium-ion batteries. The solar battery equipment cabinets are made specifically for the solar industry with an aim to make installations safer and easier for consumers.

What is a solar battery management system (BMS)?

Developed with the Pylontech LFP (lithium iron phosphate) cell chemistry to ensure the highest level of safety. Self-designed Battery Management System (BMS) protects the cell from extreme temperatures. Modular, sleek design allows neat stacking inside the AZE company solar equipment enclosures.

What kind of batteries can be stored in a rack mount cabinet?

All-in-one design, store the leading brands of 19" rack mount type lithium batteries, inverters and controllers. DC48V powered air conditioner, heat exchanger or TEC coolers are optional, which can cool down the devices installed inside the cabinet. Battery Storage Space based on the battery specification.

What is a battery cabinet made of?

The cabinets are made of galvanized steel or aluminium, making them easy to position and providing a long service life. A slide-in racking system allows for easy installation of 19" rackmount style battery modules along with rain protected vents on both sides and on top for passive ventilation.
