

Tashkent builds a pack battery factory

Overview

Will China build a solar power plant in Tashkent?

TASHKENT. Oct 15 (Interfax) - Projects for building a solar power plant and energy storage systems involving Chinese companies have been launched in the Tashkent region of Uzbekistan. A solar power plant valued at \$240 million will be built together with China Datang in the Boka district, the presidential press service said.

How much did Tashkent invest in a textile park?

An industrial textile park will be built on 69 ha in the Yuqorichirchiq district with investment standing at \$350 million. More than 20 enterprises will be located there and will produce yarn, dyed fabric and finished textile products. A total of \$1 billion was invested in the Tashkent region in 2023, the press service said.

Where is PV plant located in Tashkent?

The PV plant site is located along the 4R-12 district highway, which links feeder roads within the districts of Yukorichirchik, Parkent and Kibray to the ring road along the outskirts of Tashkent City. The single carriageway is paved and in good condition.

Where is Bess project located in Tashkent?

The PV plant and the BESS facility are situated 3.5 km apart, within Yuqorichirchik District and Parkent District respectively. Both districts are located within Tashkent Region. The overall project location lies about 20 km from Tashkent City.
