What Happens When The Grid Goes Down? How to Store Solar Energy at Home? Solar Battery Storage FAQ Storing Solar Energy Without Batteries Batteries are the most used form of solar energy storage, but there are even other options to store electricity of your PV system. One of them is directing the electricity from your PV to water electrolyzers, which generate hydrogen gas. Hydrogen is then stored and used as feedstock for fuel cells to generate electricity when needed. This is called See more on greentumble Sponsored
