

Three-phase ODM network cabinets for mountainous areas

Overview

Designed for high-performance telecom environments, this active cabinet houses essential equipment like OLTs, switches, and converters. With integrated power distribution and optional cooling systems, it ensures stable operation and network reliability in outdoor deployments.

Designed for high-performance telecom environments, this active cabinet houses essential equipment like OLTs, switches, and converters. With integrated power distribution and optional cooling systems, it ensures stable operation and network reliability in outdoor deployments.

P-107 stainless steel locking system provides double locking. Various model's mounting plates accommodate a variety of 15/25/35 kV, 200-600A junctions. The cabinets four eye-bolts allow the line-person to simply hook-up the cabinet, position it over the cables, and place it in the excavated area.

Highline® energy products, highly-durable and lightweight Millennium line of compression molded transformer box pads to our low-cost, stackable box pads, Oldcastle offers the quality and customization you need for any application. Oldcastle Infrastructure manufacturers two styles of fiberglass.

Power your telecom infrastructure with the 3OD-62DDC NEMA Triple Bay Racking Enclosure, engineered for maximum capacity, durability, and versatility in demanding outdoor environments. Its robust design supports side-by-side triple bay racking, making it ideal for high-density applications like 5G.

American Products offers a full line of outdoor cabinets and enclosures engineered to reliably, safely and securely protect your connections and valuable equipment. We've been building quality products in America's Heartland since 1989. Over the years, our team and capabilities have grown, but our.

Outdoor Active FTTH Cabinet — Integrated Cooling & Power Management Designed for high-performance telecom environments, this active cabinet houses essential equipment like OLTs, switches, and converters. With integrated power distribution and optional cooling systems, it ensures stable operation.

Ratings are 800 - 6000 amp 600 volt, 3 phase 4wire, 3 phase 3wire, and 1 phase

3wire, NEMA 1/3R dual rated and Isc ratings of 85KA RMS symmetrical with no cable lashing required. (Please contact factory for higher Ratings) Cabinets are free standing and suitable for indoor or outdoor applications.
