

Three-phase outdoor telecom enclosure for oil platforms

Overview

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Is Aze a NEMA 3R rated outdoor enclosure?

Yes, AZE specializes in NEMA 3R, 4, 4X, IP55, and IP65 rated outdoor enclosures designed to protect your equipment in harsh environments. Our enclosures are built to withstand rain, dust, corrosion, and extreme temperatures, making them ideal for telecommunications, utilities, oil & gas, and industrial applications.

Why should you choose Shield for your outdoor telecom enclosure?

This solution is also ideal for rapid deployment at the network edge. SHIELD offers a wide range of customization features for your outdoor telecom enclosures such as machining, special dimensions, custom colors, and additional protection for harsh environment.
