

Total scale of energy storage projects of power construction corporation of china

Overview

□SMM Analysis□In October 2024, the awarded scale of energy storage projects amounted to 3.7GW/9.8GWh, marking a decrease of 12.5% from the previous month, with Power Construction Corporation of China's East China Engineering Co., Ltd. securing the largest project.

□SMM Analysis□In October 2024, the awarded scale of energy storage projects amounted to 3.7GW/9.8GWh, marking a decrease of 12.5% from the previous month, with Power Construction Corporation of China's East China Engineering Co., Ltd. securing the largest project.

[China Electric Power Construction's energy storage contract amount reaches 50 billion yuan] On December 24th, China Power Construction Corporation disclosed its main operating data from January to November 2025, with 180 new energy storage projects signed and a contract amount of 500.03 billion.

□SMM Analysis□In October 2024, the awarded scale of energy storage projects amounted to 3.7GW/9.8GWh, marking a decrease of 12.5% from the previous month, with Power Construction Corporation of China's East China Engineering Co., Ltd. securing the largest project. The awarded capacity for energy.

BEIJING, Jan. 24 -- China's new energy storage sector has seen a rapid growth in 2024, with installed capacity surpassing 70 million kilowatts, said an official with the National Energy Administration (NEA). Bian Guangqi, deputy director of the NEA's energy saving and technology equipment.

With leading technology solutions, mature project delivery experience, and full industry chain resource integration capabilities, it has successfully obtained the EPC general contracting qualification for three key energy storage power station projects in Guangdong, Inner Mongolia, and Qinghai. The.

Recently, China Power Construction has signed a series of new energy storage project orders with a total amount of about 50 billion yuan, which is particularly impressive against the backdrop of a 41.97% decline in its traditional thermal power business during the same period. This is not only a

Power Construction Corporation of China (PowerChina) is a wholly state-owned

enterprise under the SASAC of the State Council. The company is active in the heavy and civil engineering construction industry and is involved in infrastructure, energy, and hydropower development projects worldwide.
