It is a source of pride to be the pioneering company in large-scale energy storage in batteries within the Brazilian transmission system. We energized the country's first project in 2022 at the Registro Substation (SP), one of the facilities responsible for supplying electricity to the southern.

The conditions are in place for the country's battery energy storage market to expand at a compound annual growth rate (CAGR) of 20% to 30%, as Holu Solar's Sophia Costa explained. From ESS News Brazilian energy suppliers raised the red flag in September 2024, signaling a rise in electricity costs.

GUELPH, ON, June 10, 2024 /PRNewswire/ — Recurrent Energy, a subsidiary of Canadian Solar Inc. ("Canadian Solar") (NASDAQ: CSIQ) and a global developer, owner, and operator of solar and energy storage assets, announced today the inauguration of the 446 MWp / 360 MWac Marangatu Solar Complex in.

As Brazil's economic powerhouse, São Paulo consumes 18% of the nation's electricity while housing 22% of its industries. This creates unique challenges in: "Modern factories can reduce energy expenses by 40% through smart storage systems," notes Carlos Menezes, Energy Analyst at São Paulo.

Brazil is the largest electricity market in Latin America, the world's seventh-largest

consumer electricity market, and has the third largest renewable energy generation capacity in the world, according to data from the U.S. Energy Information Administration (EIA). The renewable energy sector.
