Overview

192.9kWh modular system, expandable to fit projects of any scale. Seamless grid or off-grid use, paired with a powerful 125kW PCS. High efficiency design reduces energy loss and lowers operating costs. Multi-layer fire protection with smart detection for 24/7 safety.

192.9kWh modular system, expandable to fit projects of any scale. Seamless grid or off-grid use, paired with a powerful 125kW PCS. High efficiency design reduces energy loss and lowers operating costs. Multi-layer fire protection with smart detection for 24/7 safety.

Four in - cabinet PV interfaces with built - in inverter—no extra inverter needed, cuts costs & simplifies setup. Ensures automatic and seamless switching between grid and off-grid modes for uninterrupted power. Connects grid and backup generators for flexible power input. Supports electric vehicle.

Standardized Structure Design: Includes energy storage batteries, power conversion systems (PCS), photovoltaic modules, and charging modules in a compact and highly efficient cabinet. Flexible Expansion: Designed to support off-grid switching and photovoltaic energy charging, making it ideal for.

Its modular architecture allows flexible deployment for a range of applications, from commercial to industrial. Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy.

The Cevain Outdoor Cabinet System combines solar PV, battery storage, and smart energy management in a single compact unit. Built for outdoor use and designed to handle harsh environments, it's the ultimate plug-and-play solution for decentralized power systems in homes, businesses, and remote.

Secure your off-grid power needs with our outdoor cabinet energy storage system. Designed for resilience, it offers high-capacity energy storage in a weather-resistant cabinet. Ideal for outdoor installations, the robust structure withstands extreme weather conditions. Perfect for solar energy.

installation. no circulating current, safer for use.
